# Pet Licensing
Keep track of your town's littlest residents

Why SDL

Spatial Data Logic's Municipal Management Software helps bridge the gap between municipalities and their constituents by providing visibility across departments, streamlining workflow for staff and enabling self-service access for residents.

Our Pet Licensing Module is designed to help staff maintain a database of all pets, incidents and associated records within the town.

How We Help

PET LICENSES
Issue and renew pet licenses digitally. Remind residents of upcoming renewals via mail or email

STREAMLINE TASKS
Access rabies certificates, manage incidents and track payments

INFORM MUNICIPAL STAFF
Inspectors, police and other municipal employees can search to see if there is a registered pet on the premise

LOST PETS
Police and other municipal staff can search for owner information

GIS MAPPING
Link pet data to a specific parcel via GIS tool

AUTOMATE VPH-10 REPORT
Auto-populate state report
