

SDL

MUNICIPAL
MANAGEMENT
SOFTWARE

SPATIAL DATA LOGIC

Health

Ensure the safety and well-being of your residents

Why SDL

Spatial Data Logic's Municipal Management Software helps bridge the gap between municipalities and their constituents by providing visibility across departments, streamlining workflow for staff and enabling self-service access for residents.

Our Health Module is designed to help staff address complaints, conduct inspections, issue certificates and enforce codes throughout the municipality whether you are in the field or at your desk.

How We Help

STREAMLINE TASKS

Easily manage, process and view Health inspections, certificates, licenses, violations and complaints. Set reminders for reoccurring tasks

FIELD ACCESSIBILITY

Access records, view GIS maps, reference codes, complete reports and submit pictures while onsite

EMPOWER RESIDENTS

Encourage residents to submit inquiries and report concerns online

COLLABORATION

SDL modules work together to provide a comprehensive view of property history allowing staff to access information and collaborate across departments

GO PAPERLESS

Digital history of all inspection results, fines, complaints, photos and other property data

ENSURE COMPLIANCE

Quickly reference codes, zones and ordinances
